## SUMMARY

As a data scientist, I am a highly skilled professional who is responsible for analyzing, interpreting, and presenting complex data to help businesses make informed decisions. My role involves collecting and cleaning data, applying statistical methods and machine learning algorithms to identify patterns, and creating predictive models to forecast future trends. I also collaborate with other teams to design experiments, develop new data-driven products, and communicate insights to stakeholders. My expertise in programming languages such as Python and R, as well as data visualization tools like Tableau and Power BI, help me to effectively analyze data and present it in a clear and concise manner. Ultimately, my goal is to help organizations leverage their data to gain a competitive advantage and drive growth.

## EXPERIENCE

### Chief Technology Officer | SyncVitals

January 2024 - Present, Hyderabad

- We are building a nutrition AI-based model that helps people complete their nutrition in a single click
- we have trained a model in which we take user's blood sample reports and find their deficiency according to which they can get best diet

### Business development intern | Aviz Healthcare

November 2023 - December 2023, JAIPUR

- Here my role is to pitch our business to our clients and onboard them on our app • In this role, I have to make PPTs on behalf of our business
- 

### Python developer intern | Codsoft

September 2023 - October 2023, remote

- Developed a Python-based data analysis tool that parsed and visualized large datasets with NumPy and Matplotlib, improving the data processing speed by 30% for a team of five data scientists.

## SKILLS

**Technical Skills:** Python, ML algos, SQL, Excel, Data Handelling, Data Scientist, Pyspark, Machine Learning, Ai, Neural Network

## CERTIFICATIONS

### Machine Learning Algorithms | Udemy

2024

- This helps me a lot in building a machine learning model

### Data Scientist | SimpliLearn , Udemy

2023

- This certificate helps me to learn and explore new things in the field of data science •
- Learns about

### Python Professionalyst | kaggle

2023

- It shows my Python skills

## INVOLVEMENT

**associate member | Rajasthan Univesity | CodeNerds** October

2023 – Present

## EDUCATION

**B.C.A | Rajasthan University**

Minor in in data science, 8, rajasthan, India, 2026
